

What you **KNOW** (or don't) could make the difference between life or death!

Learn what to do in the event of an emergency.

CERT Training includes:

- Disaster Preparedness
- Fire Suppression
- Beginning First Aid & Triage
- Light Search & Rescue

Using the training learned in the classroom and during exercises, CERT members can assist others in their neighborhood or workplace following an event when professional responders are not immediately available to help.

CERT members also are encouraged to support emergency response agencies by taking a more active role in emergency preparedness projects in their community.
